

# Seasons Greetings

## Remember The Campbell Foundation in your charitable giving this year!

The Campbell residency program is one of the top training programs in the country and one in which all alumni should take great pride. It also merits the support of alumni to maintain the highest level of excellence and continue to attract the best and brightest young physicians.

Your generosity will help strengthen the education and research programs for our future residents and fellows and ensure that the Campbell legacy continues in its commitment to excellence in orthopaedic medicine. We are grateful for your past support and thank you for including the Foundation in your giving plans for 2007.

### From Campbell's History

**Spencer Speed**

Dr. Speed, five foot six inches tall, was known as "the little doctor". He planned to practice general surgery and gynecology, until his path crossed with Dr. Willis Campbell, who was looking for an assistant for his new clinic in Memphis. Although Dr. Speed knew little of orthopaedic surgery, his general surgery skills and experience with trauma during the war, aided him in learning orthopaedics quickly. Within the year, Dr. Speed became Dr. Campbell's first partner. He later served as Campbell Clinic Chief of Staff from 1941 – 1962, as well as the President of the Campbell Foundation from 1946 to 1964. Whether it was surgery, teaching, counseling, fishing, hunting, golfing, or farming, Dr. Speed did it well.

### Dear Alumni,

The next Triennial meeting of the Campbell Club will be April 23–26, 2009 in Memphis at the Peabody Hotel. The meeting also will be a Centennial Celebration, marking 100 years since Dr. Campbell began his practice in Memphis that would become known worldwide as Campbell Clinic. I encourage you to join us for this special weekend of educational sessions plus fun gatherings with your fellow alumni. Here is an overview of the schedule:

**Thursday** – Arrive in Memphis; registration and "meet and greet" party, Peabody rooftop (weather permitting)

**Friday** – Morning scientific session; afternoon golf and tennis; casual dinner at a downtown restaurant

**Saturday** – Morning scientific session; afternoon free; black tie dinner at The Peabody

**Sunday** – Farewell brunch at The Peabody

There will be two planning committees of alumni and staff for this special event – Program and Social. I would like to have a representative from each class assist us by contacting your fellow alumni to ensure they have received all Triennial information and encouraging them to attend. If you would like to be a part of one of the planning committees or serve as the contact for your class, please email [jstrain@campbell-foundation.org](mailto:jstrain@campbell-foundation.org).

We look forward to seeing you in Memphis in 2009!

### Alumni Profile

**Gregory M. Behm, M.D.**  
Hamilton, Montana

### Family

Wife: Beth (who is also my office manager)  
Boys: Chris – Just graduated from West Point  
Nick – 3<sup>rd</sup> year at University of Nebraska studying Biosystems Engineering with a minor in Biomedical Engineering  
Josh – 8<sup>th</sup> grader

### Education

Cornell University – Chemical Engineering  
Worked for DuPont for nine years  
University of Nebraska Medical Center  
UT Campbell Clinic Residency 1994 – 99

### Practice

Glendive Medical Center – Glendive, Montana  
1999 – 2006

Ravalli Orthopedics & Sports Medicine – Hamilton, Montana 2006 - present

### Professional Medical Service

Secretary/Treasurer Montana Orthopedic Society – current

Campbell Foundation Alumni Executive Board Member

**A special memory of my residency in Memphis is when I had to do an emergency hemipelvectomy on an 18 year old girl as a result of a MVA and having Dr. Richardson as my staff on call that night at the MED. Unfortunately, the girl died as a result of her horrific injuries, but Dr. Richardson went out of his way to make sure that my junior resident and I felt that we had done everything possible to try to save her life.**

**New Edition of Campbell's Operative Orthopaedics**

Mark your calendar

You are invited to the Campbell Club Alumni Reception at the American Academy of Orthopaedic Surgeons Annual Meeting

Friday, March 7, 2008  
6 - 8 p.m.  
InterContinental Hotel, Grand Ballroom A  
888 Howard Street  
San Francisco, CA

The 11<sup>th</sup> edition of *Campbell's Operative Orthopaedics* will be available December, 2007. It features updates on more than 1,800 procedures, as well as completely new material on 90 procedures. More than 9,000 drawings, diagnostic images, and clinical photographs are included in the book, which is published in four volumes. The edition also includes two CD-ROMS, one of which presents video clips of Campbell Clinic surgeons demonstrating key procedures. This edition marks the first time the book will be printed in full color. An on-line edition of the book and the videos will be available on the internet.

The Campbell Foundation has provided all the research, editorial, graphics, and clerical support for the publication. The text is written entirely by Campbell Clinic surgeons, with 23 of the Clinic's physicians contributing to the 11<sup>th</sup> edition. Dr. Terry Canale and Dr. James Beatty are the book's editors.

The first edition of *Campbell's Operative Orthopaedics*, published in 1939, was written in long hand by Dr. Willis Campbell, based on his vast knowledge of orthopaedics.
