December 2012

Surgeon Education

Orthopaedic Research

Community Healthcare

Happy Holidays from The Campbell Foundation

As the year comes to a close, we want to **thank you** for all that you give: clinical solutions, pain relief and a better quality of life for those affected by orthopaedic problems.

Looking ahead to 2013, it's clear that there's much more to do. More highly trained orthopaedic surgeons to treat aging Baby Boomers. More innovative research to provide better solutions for orthopaedic problems. Excellent orthopaedic treatment even for those in difficult financial circumstances. Thousands will benefit – **but only through your support.**

Your tax-deductible gift, no matter the size, to The Campbell Foundation could make the difference in 2013. **Please make a donation by December 31st.**

2012 Campbell Alumni Campaign

\$100,000 Goal – 86% to Goal YTD

Reflections on the 22nd Triennial

The 22nd Triennial is in the history books! For those not able to attend, firstly, you were missed and secondly, you missed a great meeting filled with riveting scientific exchange along with laughter-filled fellowship. Several that attended provided feedback.

Now in my 35th year of private practice, I am reminded every day of the incredible training I received during my years at the Campbell Clinic. But just as important as the quality of orthopaedic education we received are the incredible friendships formed during our years in Memphis. As residents, we certainly did our share of hard work – and we all lived in constant fear of being called upon at “Monday Night Meetings” or at our Saturday Morning Fracture Conferences. But, as “bone brothers” we also shared lots of laughs and good times together as we prepared for our lives in the orthopaedic world. Upon returning to Memphis I realize time and again how very fortunate I am to have trained at such a world-class facility and how very grateful I am for the many wonderful, lifelong friendships formed during those years.

Frank B. Kelly, MD, '78
Macon, GA

To all organizers and participants:

The 2012 WCC Triennial meeting surpassed all expectations! Undoubtedly the best and most timely didactic sessions ever. The point-counterpoint format and topics were excellent. The speakers managed to have the perfect mix of medical information, humor and nostalgic references which ultimately made for great learning sessions. Likewise the guest speakers were awesome and very approachable.

The social events, true to form, were excellent in their own right. The Friday night ideas were very novel and the food and band Saturday were outstanding! Many folks heated up the dance floor, which all but erased any lingering effects from the osseous-chilling kinesiology experience!

All in all it was fantabulous! Will 2015 ever get here?

Focus on Dr. Jeff Justis '64

From Left: Sally Justis, Jeff Justis, Mindy Caudle, Campbell Clinic Radiology Technician, Pam Reece, Campbell Clinic Physician Assistant to Dr. David LaVelle.

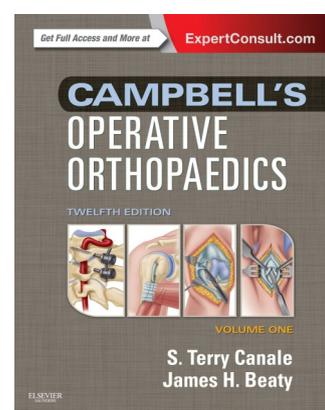

The quest for learning never ends, although it may change slightly. Recently, **Dr. Jeff Justis** (Class of 1964) provided a thrill for several long-time staff members of Campbell Clinic. On a pleasant autumn day, Sally and Jeff (literally) flew in to visit with several current assistants from Campbell Clinic. The aircraft in which they arrived was built by Dr. Justis himself! This just proves the adage....”You can teach a student a lesson for a day; but if you can teach him to learn by creating curiosity, he will continue the learning process as long as he lives.” May the wind be in your favor, Dr. Justis!

Campbell's Operative Orthopaedics

Now in its 12th edition.....

Campbell's Operative Orthopaedics, by Drs. S. Terry Canale and James H. Beaty, continues to define your specialty, guiding you through when and how to perform every **state-of-the-art**

procedure that's worth using. With **hundreds of new procedures, over 7,000 new illustrations**, a vastly expanded **video collection**, and new **evidence-based criteria** throughout, it **takes excellence to a new level...**because that is what your practice is all about. Now available at Amazon.
