

March 20, 2020 Statement
Footprints in Motion – April 17, 2020
NOW RESCHEDULED to November 6, 2020

The global coronavirus pandemic (COVID-19) has had an unprecedented impact on our world, the full effects of which are still unknown. We pray for your health and safety.

In times like these, we crave connection and meaning, and we have an even greater affection for the many selfless individuals who are “the helpers,” to use a term coined by Mr. Fred Rogers (of public television fame). As a supporter of the Campbell Foundation, we include you in this group. We are grateful for your partnership, which sustains vital services for so many.

Since we’ll all be happy for a chance to “boogie” together, we are happy to report that the **‘Friday Night Fever’ Footprints in Motion party has been rescheduled to Friday, November 6, 2020.** We look forward to sharing an evening of connection and fun with you!

We hope that your schedule will work for the new date. However, if not, we hope that you will consider converting your support to a charitable donation to the Campbell Foundation to sustain vital services. If, however, circumstances do not permit that, please contact me at the Campbell Foundation, at (901) 759-3233, or by email at kwatson@campbell-foundation.org.

I have included some photos below from the Cerebral Palsy Center of Excellence, as well as a photo from 2020 Molly Shumate Community Service Scholarship winner Dr. Carson Rider’s trip earlier this year to provide vital orthopaedic care in Guatemala.

Your support makes this work possible!

Thank you so much. It is my fervent hope that we will emerge stronger and more resilient together.

- Karen R. Watson
Executive Director of Development
